

HAND SANITIZER GEL

BULK TECHNICAL DATA SHEET

COMPOSITION

	Ingredients	%	CAS#
1.	Alcohol denat.	70-72%	64-17-5
2.	Aqua [Water]	QB. 100	7732-18-5
3.	Acrylates copolymer	1-5%	25133-97-5; 25035-69-2; 25212-88-8
4.	Glycerin	1-5%	56-81-5
5.	Propylene glycol	1-5%	57-55-6
6.	Parfum [Fragrance]	0.1-1%	
7.	Sodium hydroxide	0.1-1%	1310-73-2

Ingredients:

Alcohol denat., Aqua, Glycerin, Propylene glycol, Acrylates copolymer, Parfum, Sodium hydroxide.

Chemical-Physical Features		
General information		
Physical State	Alcohol Gel	
Appearance	Gel	
Color	Transparent	
Physical Features		
Density	0.9850-1.00 g/ml	Gravimetric
Viscosity	> 1000 cPs	Brookfield (20°C)
Chemical Features		
pH	7.0-7.50	Potentiometric
Water Solubility	Soluble	
Stability and Storage Condition		
Product Duration		
Minimum Duration of the product	30 months	
Indications on preservation modality of the product	Store away from direct sunlight in cool and dry room	
Elements in support of the minimum duration of the product	Stability tests at different temperatures	
Duration after opening (PAO)		
Duration after opening	12 months	
Indications on preservation modality of the product after opening	Store away from direct sunlight in cool and dry room	
Elements in support of the minimum duration of the product	Stability tests at different temperatures
